Proxy-Clean Products
McKinney, TX 75071

Net Contents: 1 US Gallon/3.8L

DIRECTIONS FOR USE

REMOVING SCALE AND MINERAL

- Determine the capacity of the drinking water system.
- Prepare a 1-3% solution depending on degree of scale and mineral.
- Introduce the solution into the system.
 - Activate all nipples or cups.
- Allow the solution to circulate, if possible.
 - Allow solution to stand until build-up is removed.
 - After cleaning, thoroughly flush with potable water.

FOR CONDITIONING WATER.

- Determine initial ph using appropriate test equipment.
 - Reduce ph of water by adding Mineral-Clean.
- Re-test ph to confirm desired results.
