

Proxy-Clean® Brand

Mineral-Clean®

Mineral-Clean®

Proxy-Clean® Brand Mineral-Clean® efficiently removes mineral build-up and scale.

What is Proxy-Clean® Brand Mineral-Clean®?

A combination of organic and inorganic acids.

Why Use Mineral-Clean®?

Mineral-Clean® works best after Proxy-Clean® is used to remove the heavy soils from the water system.

- Conforms to USDA Inspection Programs
- Efficiently removes mineral & scale
- Equipment-friendly
- Fast-acting
- Cost-effective
- Conditions water by reducing pH

DIRECTIONS FOR USE

REMOVING SCALE AND MINERAL:

- Determine the capacity of the drinking water system.
- Prepare a 1-3% solution depending on degree of scale & mineral.
- Introduce the solution into the system.
- Activate all nipples or cups.
- Allow the solution to circulate, if possible.
- After cleaning, thoroughly flush with potable water.

FOR CONDITIONING WATER:

- Determine initial pH using appropriate test equipment.
- Reduce pH of water by adding Mineral-Clean®.
- Re-test pH to confirm desired results.
